OUR STORY

At PGD Architects, we believe design is more than creating spaces — it is about creating experiences that connect people, nature, and functionality together.

Founded with a passion for Architecture, Interior Design, and Landscape Design, our studio focuses on crafting thoughtful and timeless environments that reflect individuality and purpose. Every project is approached with creativity, detail, and a deep understanding of how spaces influence everyday living.

From elegant residences to immersive outdoor landscapes, we aim to design spaces that feel balanced, functional, and emotionally engaging.

Our process combines modern aesthetics with practical planning to deliver spaces that are visually refined and deeply livable.

“Crafting Spaces, Inside and Out.”

WHAT WE DO

Architecture Design

Interior Design

Landscape Design

Space Planning

Concept Development

Visualization & Detailing

OUR APPROACH

We focus on:

- Clean and functional design
- Seamless indoor-outdoor connection
- Sustainable and people-centric spaces
- Attention to detail and material harmony

ABOUT ME

FOUNDER & PRINCIPAL ARCHITECT

Hello,

I'm passionate about creating spaces that are beautiful, functional, and timeless. As an architect and designer, I believe every space has a story waiting to be told – and my goal is to translate that story into meaningful design.

With 5+ years of experience in architecture, interiors, and landscape design, I have had the opportunity to work on a wide range of projects that have shaped my understanding of design, materials, and people.

I value clean design, thoughtful details, and a strong connection between indoors and outdoors. My approach is client-focused, collaborative, and driven by a deep respect for context, nature, and functionality.

“

I believe architecture should feel personal, timeless, and deeply connected to the people who experience it.”

”

WHAT DRIVES MY DESIGN

People First

Designing spaces that enhance the way people live, work and connect.

Nature Inspired

Creating harmony between architecture and the natural environment.

Detail Oriented

Believing that beauty lies in the details and thoughtful execution.

Purposeful Design

Every space is designed with a clear purpose and intent.
